

IN-Formation

The principal objective of The Cloisters Group is to gather like minds in support of the portion of Jose Trigueirinho Netto's spiritual philosophy, which in essence tells us:

Go within, find your inner temple and consecrate your life there, while accomplishing your tasks in the world.

As we move into an Aquarian Consciousness where we function as a group, it is the group that then becomes the author of any project calling humanity to greater spirituality.

We invite you to acknowledge your participation in The Cloisters Group, and declare that you know you are actively supporting the manifestation of this Trigueirinho principle.

“Support” arrives in many forms, all of which are equally important, for a project evolves through four basic steps, beginning with an **abstract principle**. Here, spiritual philosophy proposes that we all contain an Inner Temple and must find it and reside there.

Based on that principle, **Ideas** come on how to practically implement the principle. In this case, a silent retreat center, to nurture those who seek their inner temple, became the guided choice. Response to the October 2011 Figueira “silent” retreat validated the need and impelled us towards the next step.

The **gathering of materials** and plans, locating land, finding blueprints, designing “green” construction; deciding on protocols for preserving the sacred land; locating land plats; walking the prospective real estate; locating surveyor’s stakes; negotiating for purchase; communication of intention...and generally gathering all the ingredients and energies necessary, preparatory to implementing the Idea.

Our progress with our goals has been: the purchase of the land in May, 2012, and in September 2013, the purchase of a one-room cabin which has been placed on the property for a silent retreat dwelling. All of our goals to build “The Cloisters” on Sparrow Hawk Mountain, depend entirely on the energy of The Calling Humanity Group.

If you resonate with any portion of creating a sacred space where people can retreat from the busy world in order to do their inner work, you are, indeed, part of The Cloisters Group. Please contribute your energy by completing the reverse side of this IN-Formation page. All commitment, at any level or degree, will assist to create and bring in the necessary energy for moving the group’s project into manifestation.

The Cloisters Group
DECLARATION OF COMMITMENT¹

I understand and agree with Jose Trigueirinho Netto's principle that is the foundation for forming The Cloisters Group and for its projects.

It is my desire to participate with the group as we manifest a spiritual retreat center for the purpose of providing sacred space where human beings may seek their Inner Temple.

I will actively support, to the best of my ability, this Cloisters Group project in the following ways:

- PHYSICALLY:** volunteer to help build, clear, mark, maintain, care-take, install, assist, and otherwise use my physical skills to support our group's work.
- EMOTIONALLY:** dedicate prayers, sing mantras, emanate encouragement, devotion, Light, Love, and positive feelings to support our group's work.
- MENTALLY:** maintain strong intention, formulate positive thought-forms, and hold a visualized image of the completed project to support our group's work.
- SPIRITUALLY:** acknowledge the cosmic source of the Joy that comes from participating with the Hierarchies in evolving The Plan through taking actions that support our group's work.
- FINANCIALLY:** send resources as guidance from the heart urges, and as life permits, to support our group's work.
